

THE SAFETY BREAK-OUT / MAKE-UP TONG

EasyBreak

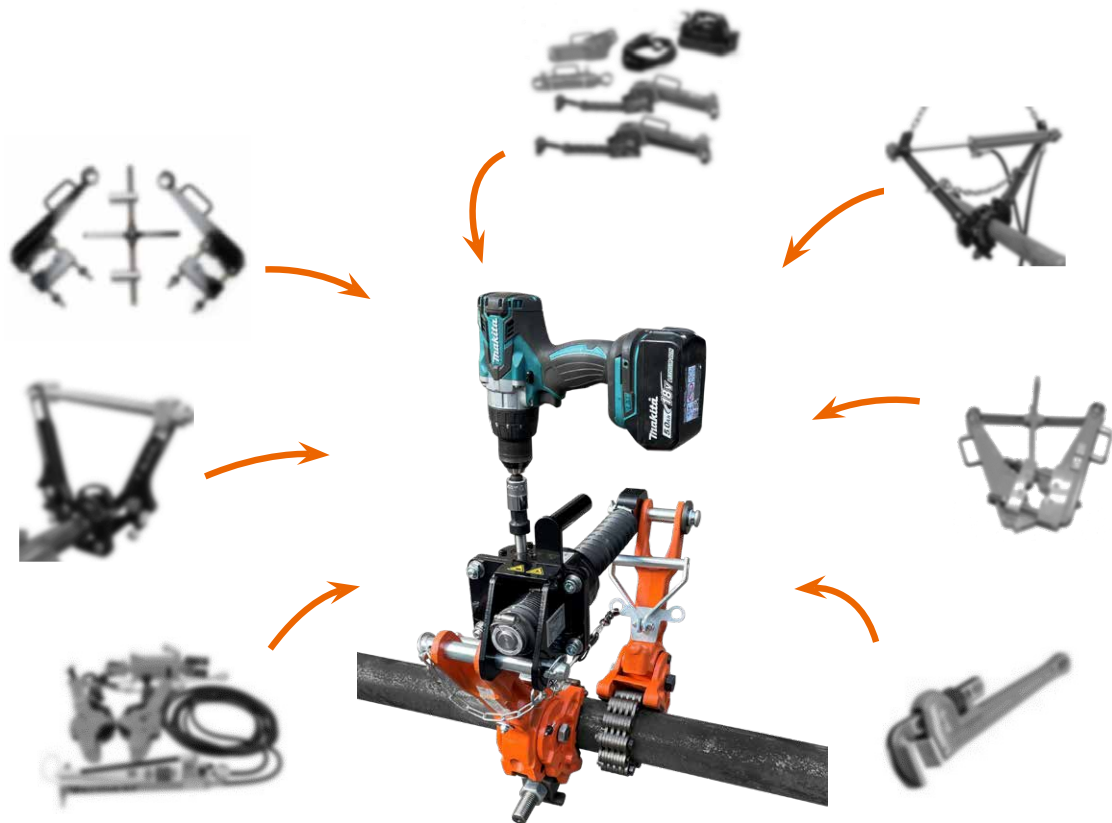

PROBLEM

It's difficult to
loosen the
drilling tool?

The drill rod break-out tong EasyBreak

Advantages

- » **drill rod diameters**
from 25 - 209 mm
- » **break-out / make-up torque**
2.400 / 5.000 / 6.800 /
9.000 / 18.800 / 32.000 Nm
- » **optimal force transmission**
through positive locking
- » **quickest break-out tool**
- » fulfils all common **norms**
- » **narrowest break-out tool**
- » **no sudden loosening** of a connection
- » necessary for **steering tools**
- » **simple follow-up** with ratchet function
- » **very resilient** for rough jobsite applications
- » **safe operation** when loosening
the thread connection
- » **no cross-section reduction**
due to quick connector
- » **1-Man-Operation**, no additional tools required
- » **application with rechargeable drill** possible

EasyBreak 2

- max. 2.400 Nm
- Ø 25 -65 mm
- Tong width: 27 mm
- Working width: 450 mm
- Total weight: 10 kg

EasyBreak 5 RR

- max. 5.000 Nm
- Ø 25 – 75 mm
- Tong width: 30 mm
- Working width: 550 mm
- Total weight: 12 kg

EasyBreak 7 GS

- max. 6.800 Nm
- Ø 25 -83 (max. 152) mm
- Tong width: 102 mm
- Working width: 550 mm
- max. single weight: 13 kg
- Total weight: 33 kg

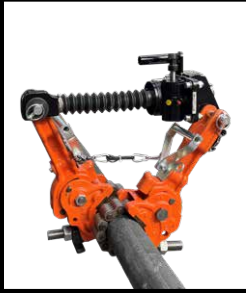

EasyBreak 9 LV

- max. 9.000 Nm
- Ø 45 -90 mm
- Tong width: 30 mm
- Working width: 550 mm
- max. single weight: 14 kg
- Total weight: 33 kg

EasyBreak 19 GS

- max. 18.800 Nm
- Ø 54 – 111 (max. 135) mm
- Tong width: 113 mm
- Working width: 550 mm
- max. single weight: 18,5 kg
- Total weight: 54 kg

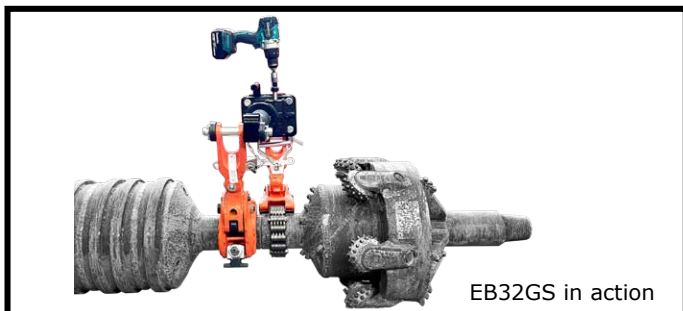

EasyBreak 32 GS

- max. 32.000 Nm
- Ø 76 - 209 mm
- Tong width: 127 mm
- Working width: 650 mm
- max. single weight: 27,5 kg
- Total weight: 75 kg

EasySpan L

- max. 17.000 Nm
- Ø 98-120 mm
- Tong width: 40 mm
- Working width: 550 mm
- max. single weight: 22 kg
